Chennai, India | +91-7397271589 | jayakrishna96555@gmail.com | LinkedIn | GitHub

Full Stack Software Engineer | Java | Spring Boot | Angular | Microservices | SQL

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 1+ years of hands-on experience building Java (Spring Boot) microservices and Angular applications for production logistics platforms serving 1,000+ active users. Strong in RESTful API design, MySQL query optimization, and Spring Security (RBAC), with end-to-end ownership from schema design through backend services to Angular front ends. Trained in Java full-stack development with a solid foundation in OOP and Agile delivery.

TECHNICAL SKILLS

Core Java: OOP, Design Patterns, Data Structures & Algorithms

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, Microservices, Centralized Exception Handling, Secure Coding

Frontend: Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap

Mobile: Ionic, Android Studio (cross-platform)

Database: MySQL – query optimization, schema design, indexing

Tools & Practices: Git, GitHub, Eclipse, VS Code, Postman, Agile/Scrum, Code Reviews

AI-Assisted Development: Cursor, OpenAI Codex, Claude Code, GitHub Copilot

PROFESSIONAL EXPERIENCE

Software Engineer | EzeeShipping, Chennai, India **May 2025 – Present**

- Led the migration of the EzeeShipping Angular application from Angular 7 to Angular 9 across 100+ components, services, and third-party libraries, resolving breaking changes and dependency upgrades.
- Developed and maintained 6+ Spring Boot microservices and REST APIs for logistics, booking, and shipment-tracking workflows, owning business logic, persistence (JPA/Hibernate), validation, and exception handling.
- Cut average API payload latency by 25% through DTO optimization; indexed high-volume MySQL transaction tables and refactored slow relational queries to speed up shipment reports.
- Implemented Spring Security with Role-Based Access Control (RBAC) and automated session timeouts to protect sensitive admin routes.
- MeOnline Platform: contributed to building the platform from the ground up (Spring Boot, JPA/Hibernate, MySQL, Angular), delivering backend REST APIs and their Angular integration with end-to-end validation and error handling.
- EsealStore: maintained and enhanced a live application supporting 1,000+ active users; shipped new Angular features and resolved production issues across frontend and backend layers.
- Sodatra: took ownership of the frontend architecture of an in-progress application; built new Angular components and fixed complex calculation and business-logic defects to stabilize it for deployment.
- Corporate Website & Mobile App: redesigned the company website with responsive, mobile-first HTML/CSS/JavaScript; revived and redeployed a legacy Ionic/Angular mobile app used by 100+ active users.

KEY PROJECTS (PERSONAL)

Warehouse Management System | Java 17, Spring Boot 3, Spring Security, JPA/Hibernate, MySQL, Angular, Chart.js

- Built an inventory portal with authentication, RBAC, password encryption, DTOs, and database-backed sessions with automated 30-minute invalidation.
- Developed CRUD REST APIs with centralized exception handling (@ControllerAdvice) and structured HTTP status responses.
- Delivered stock tracking, inventory valuation, low-stock alerts, and Chart.js dashboards for stock distribution and turnover.

E-Commerce Web Application | Java, Spring Boot, Spring MVC, Spring Security, Angular, MySQL, Microservices

- Designed a modular microservices platform with separate product catalog, cart, and order services over a normalized MySQL schema of 10+ tables.
- Implemented registration, login, email verification, and password reset with Spring Security; built product browsing, cart calculations, and email notifications in Angular.

EDUCATION

Bachelor of Computer Science, Dhanraj Baid Jain College

2021 – 2024 | First Class with Distinction | CGPA: 7.8

CERTIFICATIONS

- Java Full Stack with Angular & Spring Framework – Credo Systemz (6 Months)
- Diploma in Data Quality Analysis – Tech Mahindra Foundation (4 Months)
